## Continuation Sheet (PTOL-303) 09/924,960

Application No.

Continuation of 2. NOTE: Amending claim 1 so as to incorporate the limitations of claim 7 and to overcome the rejection under 35 USC 112 requires further consideration as to whether the claim so amended overcomes the rejection under 35 USC 112 and is patentable over the prior art. Likewise for claim 23 with respect to claim 38 with respect to claim 44, new claim 63 (prior claim 3), new claim 64, new claim 65 (prior claim 5) and new claim 66. Furthermore, the incorporation of the limitations of claim 7 into claim 1 raises new issues with regard to the claims depending from claim 1 as to whether the dependent claims are patentable. The amendments to the specification raises new issues regarding whether there is adequate support in the originally filed disclosure for the changes.
